Electric Steam & Hot Water Boilers

THE COLLINS WALKER RANGE

COMPACT STEAM BOILER – ELV RANGE

Our fully packaged ELV boilers comprise everything required for the generation of steam. Utilising immersion elements to offer up to 190kg/h of steam for pressures up to 27 bar and a kilowatt rating between 12.5 and 120. This unit is suited for smaller applications, has a small footprint is clean and quiet making it ideal for installation close to the point of use.

STEAM BOILER – IS RANGE

For larger demands our IS range of Immersion Element Steam Boilers can offer any steam output up to 3345 kg/h between 36 and 2106kw to pressures up to 27 bar. Offered as a packaged solution with an extensive list of extras, allows users to tailor make the solution to meet their precise requirements.

WATER BOILER – IW RANGE

For all water heating applications our IW boiler range of immersion element boilers provides for small to very large demands. Rated at between 12 and 936kw an IW boiler is a fully packaged solution for pressurised systems anywhere up to 10 bar.

STEAM BOILER – ES (ELECTRODE)

For larger steam requirements or where a customer has a particular preference we offer our ES electrode range of boilers. Ranging from 54 to 3770kw with steam outputs up to 6000kg/h, these units offer a robust solution for any steam demand.

WATER BOILER – EW (ELECTRODE)

Similar to our ES boiler the EW range utilises electrodes to generate hot water, offering outputs from 216kw to 2150kw. Ideal for larger centralised requirements up to 10 bar.

COMPLETE MANAGED SOLUTIONS

As we supply solutions throughout the world our whole range is offered with a supply voltage from 380 to 690 volts to suit any local power provision. Manufactured to PD5500 our boilers are continually inspected during manufacture to guarantee the quality and compliance with standards. Our philosophy is 'One size does not fit all' and as a bespoke manufacturer we can offer solutions to suit any requirement. We offer stainless steel versions for clean steam, DNV for marine applications, programmable logic control for remote control and monitoring. Coupled with our excellent service and support we provide complete worry free solutions.

THE BENEFITS OF ELECTRIC BOILERS

- ▶ **Environmentally Friendly and Pollution Free**
- ▶ **Quick Steam from Startup**
- ▶ **Clean, Quiet and Odourless – no pollution**
- ▶ **Simple and Cheap installation**
- ▶ **Low Maintenance**
- ▶ **No Dedicated Boiler Room requirement**
- ▶ **Flame Free**
- ▶ **No Fuel Storage requirement**
- ▶ **Close to point of use installation**
- ▶ **Smaller Foot print than equivalent gas/diesel Boiler**
- ▶ **No Flue needed**
- ▶ **Simple Operation**
- ▶ **No Exhaust Fumes**
- ▶ **Easy to Upgrade**
- ▶ **No Special Fire or Health and Safety Precautions**
- ▶ **High Efficiency up to 98% even at Partial Load**

OUR PRODUCTS

- Electric steam and water boilers** ◀
- Blowdown Vessels and Hotwells** ◀
- Water Treatment Systems** ◀
- Dosing systems and boiler treatment chemicals** ◀
- Calorifiers and Storage Tanks** ◀
- Superheaters** ◀
- Renewable energy heating solutions** ◀
- Clean Steam Boilers** ◀
- DNV Certification** ◀
- High Pressure Boilers** ◀
- Programme Logic Controlled, enabled for remote operation, monitoring via the web, email or SMS messaging** ◀

OUR SERVICE

- Planned Maintenance Contracts** ◀
- Emergency call out service** ◀
- Pre and post sales technical support** ◀
- Supply of Spare parts** ◀
- Boiler Hire** ◀
- Finance arranged subject to status** ◀
- Annual service and inspections** ◀
- Training for On-site Operators** ◀

COLLINS WALKER

Collins Walker was incorporated in 1973 and quickly established itself as the worldwide leader in the Electric Boiler market offering bespoke steam and hot water solutions to customers across many different industries and countries.

We manufacture and continue to hand build our boilers in the UK utilising our qualified and experienced engineers.

All our boilers are CE marked and certified.

Every boiler is independently inspected for quality and adherence to CE / PED specifications.

We continue to provide support and maintenance for every boiler we ever made.

OUR MISSION

'To sustain profitable growth by manufacturing technologically superior electric steam and hot water boilers to provide our customers with the best experience and support.'

OUR PRINCIPLES

Understand our customer's requirements to help them gain a competitive advantage in their markets by selling not only boilers but solutions.

Innovate by applying inspiration, imagination and creativity to solve the challenges faced by the environment.

Demand the highest professional and ethical standards in all our business dealings.

Never compromise our integrity.

Recognise our social and economic obligations to the community.

Take pride in what we produce.

OUR GOALS

To continue building long term strategic relationships with our customers by building upon our global reputation of excellence through innovation, quality and service.

OUR CLIENTS

Collins Walker Limited has boilers installed in over 50 countries and as market leader has an impressive list of clients. The company has achieved an excellent reputation worldwide not only for the quality of its products but for its professional and friendly pre and post sales support.
